

DOS CASAS EN PONTE DE LIMA

2001/2002 TWO HOUSES IN PONTE DE LIMA

→ Alzado desde la calle / Street elevation

Situación / Site plan

Un terreno muy inclinado.

A very steep site.

Dos casas con el mismo programa. Y dos temas a experimentar:

Two houses with the same program. Two themes to test:

- Arrojarse en el paisaje, procurar unas sensaciones desde el interior de cobijo, de cercanía y rasante.
- To be wrapped in the landscape, where the sensation from inside is shelter, proximity and imminence.

- Alzarse sobre la pendiente, procurar que la vista se eleve, lejana, en profundidad hacia la sierra.
- To rise on the slope to produce a high, distant view with depth towards the mountains.

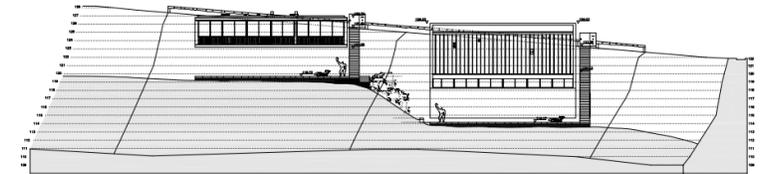

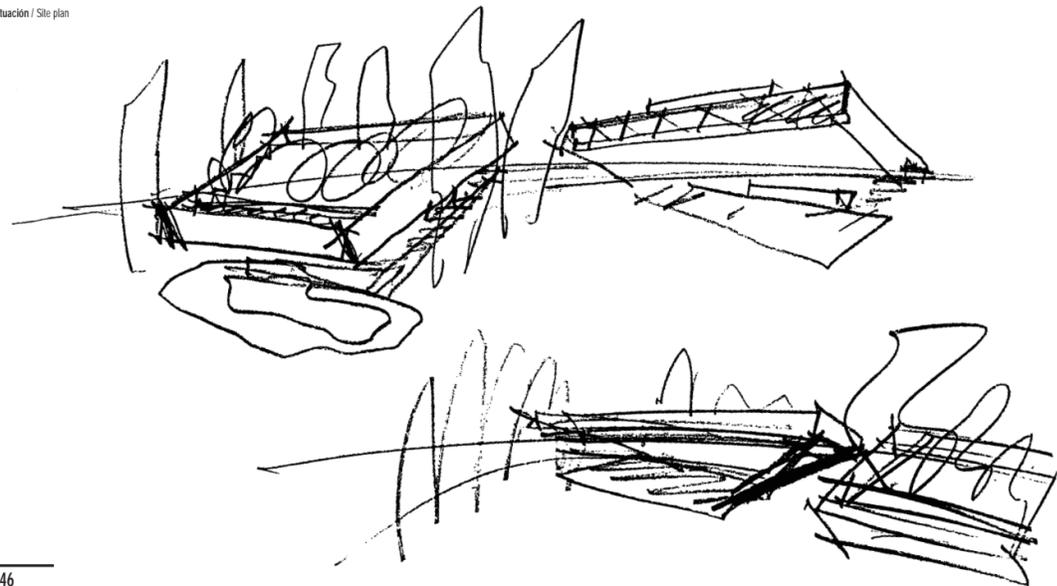

Dos casas, un único programa, dos propósitos, que no tienen sentido separados.
Two houses, one program, two essays, that have no meaning if separated.

Como solía decir Fernando Távora en sus clases:

As Fernando Távora used to say in his classes,

"... en arquitectura, lo contrario también es verdad".

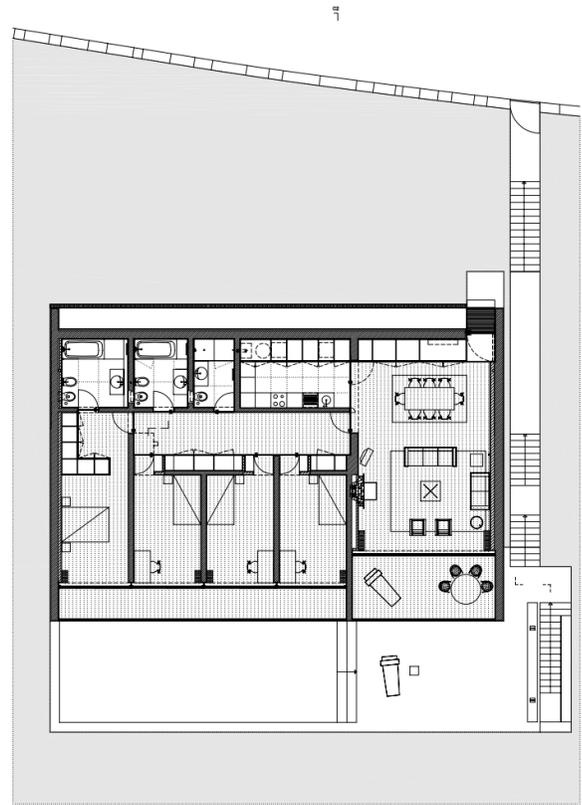

"...in architecture, the opposite is also true".
